DISSOLVES IN WATER

STICK PACK

### Helps support gastrointestinal health. Contributes to a natural healthy gut flora. Helps manage and reduce antibiotic-associated diarrhea.

Microorganisms called intestinal flora live in our digestive system and are essential to our health and well-being. These 'good' bacteria perform many functions, such as helping to strengthen the immune system and preventing pathogens (such as 'bad' bacteria, parasites and other harmful substances) from attacking and penetrating the intestinal wall. As they metabolize, they also provide nutrients that the human body is unable to source elsewhere, serving as an instant source of energy for the brain, and helping to improve muscular activity and physical resistance.

The Fizzy Probiotic Powder is an orange-flavoured probiotic supplement primarily derived from two live fermenting agents, *Lactobacillus acidophilus* and *Bifidobacterium lactis*, which boost intestinal flora and help to restore the delicate ecosystem of your child's gut. Calcium carbonate and citric acid provide a fun fizzy sensation that kids

love and, along with a balanced diet rich in fruits and vegetables, can also help to provide relief of constipation.

#### MEDICINAL INGREDIENTS

Each sachet contains 2 billion CFU (*Lactobacillus acidophilus* NCFM® ATCC:SD5221, *Bifidobacterium animalis* subsp. *lactis* BL-04 ATCC:SD5219).

#### NON-MEDICINAL INGREDIENTS

Sucrose, calcium carbonate, sodium citrate, citric acid, orange flavour.

#### RECOMMENDED DOSE AND DIRECTIONS FOR USE

One (1) sachet daily, to be dissolved on the tongue for children aged 5 years and up. For children 3-5 years, dissolve in a glass of water and take immediately.

Do not exceed recommended dose. If your child is taking antibiotics, make sure to administer this product at least 2-3 hours before or after the antibiotic.

#### CAUTIONS AND WARNINGS

If your child has a fever, is vomiting, has bloody diarrhea or severe abdominal pain, consult a healthcare professional prior to use. If symptoms of digestive upset (e.g., diarrhea) occur, worsen and/or persist beyond 3 days, discontinue use and consult a healthcare professional.

Read this leaflet carefully and keep for future reference.

#### CONTRAINDICATIONS

If your child has an immune-compromised condition (e.g., AIDS, lymphoma, patient undergoing long-term corticosteroid treatment), do not use this product.

#### STORAGE

This product contains live fermenting agents which are sensitive to heat; do not expose to sources of heat and extreme temperatures. Store away from light at less than 20°C.

**Keep out of reach of children.**

**2 BILLION CFU/SACHET  
ASPARTAME FREE  
GLUTEN FREE
